A Change Model for Doctoral to Faculty Diversity in STEM

## Adopting AGEP-NC Workshop

The AGEP-NC Leadership Team gave their first Adopting AGEP-NC Workshop on October 22, 2021 at the Georgia State University School of Public Health. This workshop is intended for institutions that might be interested in adopting the AGEP-NC model and trying this approach at their own institution. The workshop consists of a half-day opening in-person workshop followed by two 1.5-hour virtual sessions.

Day 1 (4 hours, in person)

- Overview of aims and approach
- Components of the AGEP-NC model of change, how we have implemented them in the North Carolina Alliance and toolkit for implementation
- Listening session to understand your institution's goals and needs, assign several questions for consideration

Day 2 (1.5 hours, virtual)

- Review and discussion of goals and needs at your institution; panel discussion with AGEP-NC faculty fellows

Day 3 (1.5 hours, virtual)

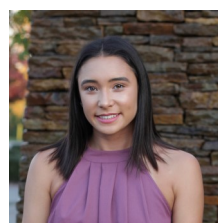

- Surveys, mentoring results and mentor training

"We are very grateful for the time that the NC-AGEP consortium has spent sharing this mentoring model with us. During our workshop session we learned how the model has worked for them and were also able to begin to conceptualize how elements of the model might work for our School of Public Health. There was rich, thought-provoking discussion and I know I walked away excited to complete our homework and begin our next discussion on Nov. 9<sup>th</sup>. I see this model having elements of transformational change in how we conceptualize faculty and student mentoring." — Kim Renee Ramsey White, Assistant Dean for Diversity, Equity and Inclusion, GSU School of Public Health.

We would be very happy to give a workshop at your institution. Please contact [gumpertz@ncsu.edu](mailto:gumpertz@ncsu.edu) for more information.

## Meet Our Student Interns

**Communications Intern:** My name is Alex Wilkinson and I am a Communication Media major from Apex, NC. I am a senior graduating in May 2022 and I spend my time working with NC State's Go Pack Productions team, the AGEP-NC program, the NHL as a live broadcast operator, and I also find pleasure in running and working out at the gym. For AGEP-NC, I work with Dr. Gumpertz maintaining the AGEP-NC.org website and creating videos for the program.

**Assessment Intern:** My name is Andrea Stancescu and I am an applied mathematics and statistics student from Cincinnati, Ohio. I am a second year student and I to stay busy on campus am involved in club tennis, the AGEP-NC program, and the college of sciences ambassador program. For the AGEP project, I work directly with Dr. Brawner on the Qualtrics email lists and survey data. I'm interested in data science and machine learning and I am passionate about working with data and the data cleaning I am doing!
